QUÉBEC PENSION PLAN

TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0,005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0,005 is indicated by a dash (—).

1. Persons receiving combined pensions are counted only once in the total number of beneficiaries.

2. As the death benefit is a lump-sum payment, data concerning this benefit and its monthly and yearly variations are shown for new beneficiaries only; under "net disbursements", however, the amounts shown include retroactive payments and sums recovered or withheld.

3. Since January 1974, the orphan's pension and the pension for the disabled contributor's child have been 29,00 \$ per month. For this reason, the average monthly amounts of these pensions are not shown here.

QUÉBEC PENSION PLAN

TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0,005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0,005 is indicated by a dash (—).

1. Persons receiving combined pensions are counted only once in the total number of beneficiaries.

2. As the death benefit is a lump-sum payment, data concerning this benefit and its monthly and yearly variations are shown for new beneficiaries only; under "net disbursements", however, the amounts shown include retroactive payments and sums recovered or withheld.

3. Since March 1974, the orphan's pension and the pension for the disabled contributor's child have been 29,00 \$ per month. For this reason, the average monthly amounts of these pensions are not shown here.

QUÉBEC PENSION PLAN

TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0,005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annuled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0,005 is indicated by a dash (—).

1. Persons receiving combined pensions are counted only once in the total number of beneficiaries.

2. As the death benefit is a lump-sum payment, data concerning this benefit and its monthly and yearly variations are shown for new beneficiaries only; under "net disbursements", however, the amounts shown include retroactive payments and sums recovered or withheld.

3. Since January 1974, the orphan's pension and the pension for the disabled contributor's child have been 29,00 \$ per month. For this reason, the average monthly amounts of these pensions are not shown here.

QUÉBEC PENSION PLAN

TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0,005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0,005 is indicated by a dash (—).

QUÉBEC PENSION PLAN

TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0,005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0,005 is indicated by a dash (—).

1. Persons receiving combined pensions are counted only once in the total number of beneficiaries.

2. As the death benefit is a lump-sum payment, data concerning this benefit and its monthly and yearly variations are shown for new beneficiaries only; under "net disbursements", however, the amounts shown include retroactive payments and sums recovered or withheld.

3. Since January 1974, the orphan's pension and the pension for the disabled contributor's child have been 29,00 \$ per month. For this reason, the average monthly amounts of these pensions are not shown here.

QUÉBEC PENSION PLAN

TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0,005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0,005 is indicated by a dash (—).

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0.005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

1. Persons receiving combined pensions are counted only once in the total number of beneficiaries.

2. As the death benefit is a lump-sum payment, data concerning this benefit and its monthly and yearly variations are shown for new beneficiaries only, under "net disbursements", however, the amounts shown include retroactive payments and sums recovered or withheld.

3. Since January 1974, the orphan's pension and the pension for the disabled contributor's child have been 29.00 \$ per month. For this reason, the average monthly amounts of these pensions are not shown here.

QUÉBEC PENSION PLAN

TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0,005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0,005 is indicated by a dash (—).

QUÉBEC PENSION PLAN TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0.005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0.005 is indicated by a dash (—).

1. Persons receiving combined pensions are counted only once in the total number of beneficiaries.

2. As the death benefit is a lump-sum payment, data concerning this benefit and its monthly and yearly variations are shown for new beneficiaries only under "net disbursements", however, the amounts shown include retroactive payments and sums recovered or withheld.

3. Since January 1974, the orphan's pension and the pension for the disabled contributor's child have been 29.00 \$ per month. For this reason, the average monthly amounts of these pensions are not shown here.

1. Persons receiving combined pensions are counted only once in the total number of beneficiaries.

2. As the death benefit is a lump-sum payment, data concerning this benefit and its monthly and yearly variations are shown for new beneficiaries only; under "net disbursements", however, the amounts shown include retroactive payments and sums recovered or withheld.

3. Since January 1974, the orphan's pension and the pension for the disabled contributor's child have been 29,00 \$ per month. For this reason, the average monthly amounts of these pensions are not shown here.

QUÉBEC PENSION PLAN TABLE 1

DEFINITIONS

Terms respecting the Québec Pension Plan

Beneficiary:

Person receiving a benefit for a given month.

New beneficiary:

Person receiving a benefit for the first time.

Net disbursements:

Net disbursements include all benefits paid to beneficiaries, as well as benefit amounts that are recovered, withheld, or paid retroactively.

Average monthly benefits:

The average calculated by dividing the total of the monthly benefits paid, by the number of these benefits. Amounts that are recovered, withheld, or paid retroactively are not included in this calculation.

Combined pensions:

When a surviving spouse's pension and a retirement or disability pension are payable concurrently to a beneficiary, the pensions are said to be "combined".

Pensions in effect:

Pensions which have been paid or suspended.

Pensions in payment:

Pensions the payment of which has commenced.

Pensions commencing payment:

Pensions which have been paid for the first time.

Suspended pensions:

Pensions the payment of which has been temporarily interrupted for various reasons.

Pensions terminated:

Pensions the payment of which has ceased permanently for various reasons.

Variations (%):

Relative positive or negative differences recorded over a period of a month or a year. A difference of less than 0,005 is indicated by a dash (—).

Terms respecting Québec family allowances

Beneficiary:

The beneficiary may be the mother, the father, or another person who fully or to a large extent supports the child or children.

Family:

"Family" means the beneficiary and all the children for whom family allowances are paid. A benefiting family must include at least one child for whom family allowances were paid for a given month.

Child:

The word "child" refers to any unmarried child who is less than 18 years of age and who is not a dependent of the State. The number of children in a family includes all children for whom allowances have been paid for a given month.

Gross disbursement:

All payments made to beneficiaries for a given period. The gross disbursement includes amounts that are paid retroactively or annulled but does not include allowances that have been overpaid.

Average disbursement:

The average disbursement is calculated by dividing the total monthly allowances paid, by the number of beneficiaries or the number of children, as the case may be. In this calculation, reimbursements and retroactive payments are not considered.

Variations (%):

Relative positive or negative differences recorded over a period of one month or one year. A difference of less than 0,005 is indicated by a dash (—).

1. Persons receiving combined pensions are counted only once in the total number of beneficiaries.

2. As the death benefit is a lump-sum payment, data concerning this benefit and its monthly and yearly variations are shown for new beneficiaries only; under "net disbursements", however, the amounts shown include retroactive payments and sums recovered or withheld.

3. Since January 1974, the orphan's pension and the pension for the disabled contributor's child have been 29,00 \$ per month. For this reason, the average monthly amounts of these pensions are not shown here.
